POLLINATION, PURPOSE, AND POWER IN EVERY CHAPTER

Alenya is no ordinary honeybee.

She's a bold forager and loyal friend. But when wildfire smoke drives her hive into the mountains—and a bear destroys their new home—Alenya must summon her courage to help her colony survive.

Blending science and storytelling, **The Nectar Collector** introduces readers to hive life, pollinators, and environmental resilience. With eco-conscious themes and rich characters, it's a compelling mix of adventure and education.

“The Nectar Collector pulls us into a wealth of fascinating information about bees and their work while entertaining us with a gripping tale of loveable characters, with and without wings.”

—Tina Welling, author of *Writing Wild: Forming a Creative Partnership with Nature*

“This book has everything a kid looks for in a story—fascinating characters, a dynamite plot, and enough insight into the lives of bees to satisfy any budding apiologist.”

—Tim Sandlin, founder and executive director of *The Jackson Writers' Conference*

If readers like *May B. Bug* by Dee Leone or *Tarantula Tide* by Sharon Tregenza, then they'll love *The Nectar Collector*.

Patti Sherlock is the award-winning author of *Letters from Wolfie* (selected for two One-City, One-Book events), *Some Fine Dog*, and *Four of a Kind*. A former journalist and longtime bee enthusiast, she blends her love of animals, nature, and storytelling into books that resonate with young readers. She lives in Idaho, where she blogs about bees, teaches at the Jackson Writers Conference, and volunteers at her local soup kitchen.
